

Project Design Phase

Solution Architecture

Date	15 February 2025
Team ID	
Project Name	FreelanceHub — Freelancing Marketplace
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Defines the overall structure and components of a software solution.
- Specifies how frontend, backend, database, APIs, and security work together.
- Ensures the system is secure, scalable, reliable, and maintainable.

Example - Solution Architecture Diagram:
